

GF 1

Boundary layer microphone

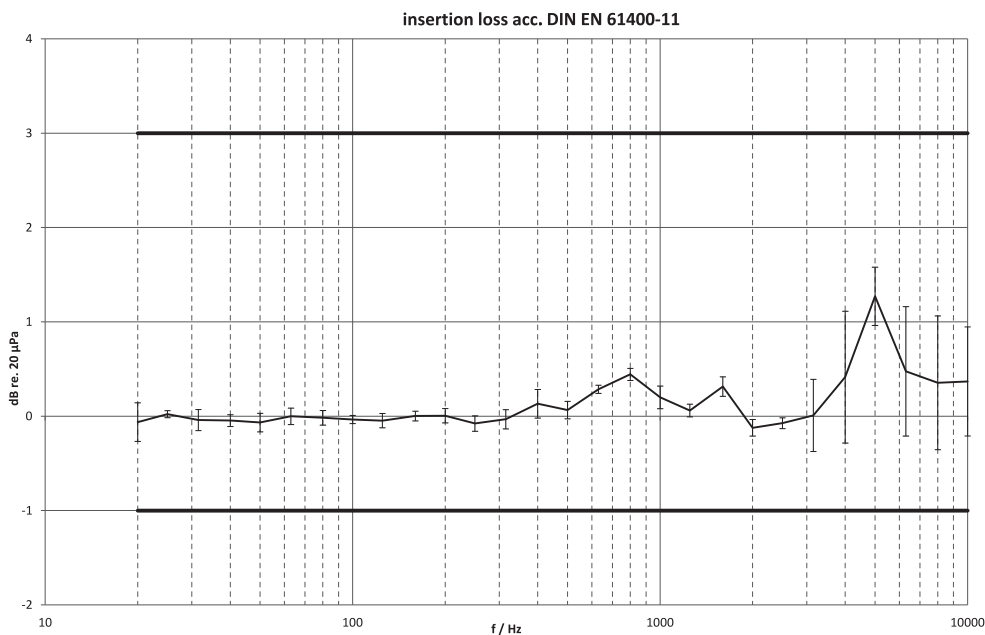

for wind power stations

- DIN EN 61400-11
- noise emission measurement
- for ½" microphone sets
- reduction of wind noise
- weatherproof
- divisible ground plate

Delivery	Typ	Order-No.
Boundary layer microphone (demountable in three parts) with primary windscreen W 2.1 and secondary windscreen W 450 in transport case	GF 1	315056

Diameter ground plate		1000 mm
Height of the ground plate (with feet)		43 mm
Diameter primary windscreen		85 mm
Diameter secondary windscreen		450 mm
Height of the boundary with windscreen		252 mm
Weight	without transport case	15 kg
	with transport case	27 kg

level of wind generated noise with and without windscreen Terz 250 Hz
